

ACTION: Medical Determination

MAR 29 1990

Deputy Regional Flight Surgeon, ANM-301

Air Traffic Manager, Troutdale ATCT

This is in response to your request for a medical determination of Jeffery N. Lewis, ATCS. After reviewing your letter of 11-9-89, and multiple telephone interviews with Mr. Lewis, it is my determination that he is within the medical standards for Air Traffic Control Specialists as outlined in FAA Order 3930.3A.

It is apparent that there is facility discord of which Mr. Lewis is a prominent part. In an effort to resolve this, I strongly recommend that you contact Katherine Friedman, ANM-17, FTS 446-2838, who is an organizational development specialist. She has the experience and ability to work with individuals and groups in a very constructive manner.
