To: Larry Clark, ZOA FLM
From: Jeffrey Lewis, ZOA ATCS

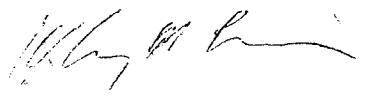

Larry,

Please accept this letter requesting to withdraw from the radar training program here at Oakland ARTCC. I wish to resign from this training program for personal reasons.

As you are aware, I have served as an air traffic controller for nearly twenty years, including certifications at four control towers in three western states. As such, I believe it would best serve the agency if I was offered reassignment to a tower. Additionally, if it would be helpful for staffing needs in Area H, I will gladly continue to perform ATOP ATC duties during my career transitional period.

Also, Larry, thanks for the considerable support you have provided in my training process. You care, and that means a lot in life.

Sincerely,

Jeff Lewis
