Jeff,

We still have your case in line for arbitration. I will keep you posted regarding any possible scheduling, settlements, discussions, etc. We did make a request of a full audit. I haven't received any information as of yet.

Kevin

Kevin,

If you sent anything, I never received it. Please forward a reply ASAP, as it is needed.

Specifically, I need to know what NATCA is doing and planning to do to resolve this ongoing case...

Thanks. Jeff

Hi Kevin,

Thanks for the email two weeks ago. For the record, I have serious doubts that Castrellon is coordinating with no-longer-FAA Rotella to try to settle> First, Rotella was totally burned out on the corruption within Castrellon's office. Second, Castrellon is a top-notch rat (did you ever see the b.s. he spewed in the numerous letters he wrote Fall 2008, denying my grievances and announcing the decision to remove me?...let me know if you want copies). And, third, there pattern forever has been to delay perpetually...to do nothing, hold no accountability...just make the grievant eventually give up. So, no, I think Castrellon is telling you more FAA-bullspoke; if you have reason to believe I am wrong, please advise and explain.

I have been reviewing my files and the nearly one-year history of the "arbitration" of my grievance. I have come to the conclusion that FAA is apparently not truly interested in any settlement or resolution, and simply feels if they stall, this will just fade away. I also recognize that, in the brutal history I have endured these past 2.5 years, there has been no accountability for Agency officials and, amazingly, no documentation of what they have done to damage me.

Clearly, their methods and abuses must be documented and exposed, to ensure Agency officials never again employ these tactics against other employees, including future NATCA members. Therefore, I have concluded I have no interest in pursuing any settlement with the Agency on my case. This case must be arbitrated.

I ask you proceed immediately to facilitate scheduling for arbitration.

Please advise the dates I need to plan around, and the materials you will need to prepare.

Thank you. Jeff

P.S., has the Union formally requested a full audit of my leave and pay, to assert their authority to compel the Agency to provide this necessary information?
