Subject: Andy, can you please explain...

Andy,

I have attached two emails. One is the email you sent to me on 8/11/08, in which you declare you looked and could not find the 9/5/07 email in which my admonishment had been declared. The other is a copy of that same email, as saved to archives from your files, to the 10/13/08 close-of-business archives (mandated by OSC, to prevent premature destruction of email records, as had happened in the DFW whistleblower cases...you know a bit about these, too, from your detail to DFW in late 2008).

Would you please explain: how is it that you told me, in your 8/11/08 email, that you had no copies of this critical record, yet it appeared two months later in your files, as archived on 10/13/08? Were you given guidance by Counsel or another ATO official to misrepresent, by declaring you could not find this email?

Clearly, I should have had a copy of Mr. Fossier's 9/5/07 @1:58PM email (and it's many and substantial attachments) when I sent you my rebuttal to the removal proposal, on 8/22/08. But, I did not have a copy, because you claimed you could not find it...

So, if you earnestly believe that you did NOT make a misrepresentation to me in your 8/11/08 email, would you please advise what you will do to aid in correcting for the damages that were done?

Lastly, I am CC'ing copies to Dave Caldwell (the SFO NATCA rep, involved in my case from 2/07 onward), Barry Davis (the WSA-ATO Sr. Advisor from 2/07 onward...though he was replaced by Dave Adams around summer 2008), Richard Giles (the principal recipient of the email you claimed you could not find), and Ros Marable (the AWP-16 LR/ER Specialist tasked with drafting my suspension in April 2008...then making that a removal in May 2008 in retaliation for my filing grievance NC-08-79364). Perhaps they can aid you in recollecting the details of this matter.

I await your response.

Jeff Lewis
