Dr. Stephen Goodman
FAA, Aerospace Medicine Division
P.O. Box 92007
Los Angeles, CA 90009-2007

Dear Dr. Goodman,

I received a copy of your ATC Medical Clearance memo on Monday, reversing the decisions of last June. Thank you for sending this copy.

As you know, I have spent a great amount of time since last Spring trying to make sense of this situation. One of the biggest "puzzles" is your 6-7-2007 memo to Dr. Roberts, a copy of which was sent to me as part of my entire medical file. In this memo, you recommended my disqualification after characterizing me as "abusive" and with a seventeen-year history of "inappropriate behavior". You will understand I was frankly shocked by this memo.

The memo was shocking because it made many false slanderous assertions. My first manager, Mr. John Mollinet, documented numerous false statements about me (which he never shared with me...I only learned of them after receiving my entire medical file) so, I have long assumed your 6-7-2007 memo would have documents (albeit likely false) supporting it. My many FOIA requests have yielded no documentation supporting the content of this 6-7-2007 memo, so I have to reasonably assume there is no documentation. If my assumption is incorrect, please provide a copy of all documentation used to support the "abusive" and "inappropriate behavior" claims in your memo. On the other hand, if there truly is no supporting documentation, would you *please* call or write with a brief explanation as to how this memo came to exist in my medical file?

Thanks again for the reversal and copy of the memo. I look forward to hearing from you.

Sincerely,

Jeff Lewis
