FOIA Intake, FAA Headquarters
-- via email --

Dear Sir or Madame,

Please accept this as a request for copies under the Freedom of Information Act (FOIA).

In support of research and publication that I am doing on FAA's NextGen program, this FOIA request seeks a copy of an early document, created and widely distributed in 2003. The title is 'Roadmap for Performance-Based Navigation, version one'. Here is a picture from an online search, including an excerpt where FAA describes the contents:

<p>Call to Action</p> <p>Responding to the challenges facing the air transportation industry, the FAA in July 2003 unveiled its commitment to performance-based navigation and outlined its strategy in the <i>Roadmap for Performance-Based Navigation</i>. The original <i>Roadmap</i> served as a call to action for both the FAA and industry. As a result, the aviation community is instituting performance-based navigation to increase safety, efficiency, and capacity in the NAS.</p> <p>This new <i>Roadmap</i> results from collaborative FAA and industry efforts that establish a joint government/industry strategy for implementing performance-based navigation: critical initiatives to accommodate the expected growth and complexity over the next two decades. The strategy has five key features:</p> <ul style="list-style-type: none"><input type="checkbox"/> Expediting the development of performance-based navigation criteria and standards.<input type="checkbox"/> Introducing airspace and procedure improvements in the near term.<input type="checkbox"/> Providing benefits to operators who have invested in existing and upcoming capabilities.<input type="checkbox"/> Establishing target dates for the introduction of navigation mandates	 <p>Looking for this...</p>
--	--

Please note, an updated copy of this report was done three years later. I already have a copy of the 2006 version, which is marked as 'version two'. Please use caution to search for and provide a copy of Version One, from 2003.

For this FOIA request, I ask for a complete, true, legible and unredacted copy of the following:

1. The 'Roadmap for Performance-Based Navigation', version one, as published in July 2003.

For your convenience, and if this FAA publication is available in PDF form, the FOIA response may be sent to my email address:

reformFAAnow@gmail.com

Thanks for your help. And, if needed, please call.

Sincerely,

Jeff Lewis
