

ZOB MOVIE BROADCAST OVERALL TIMELINE

Time	Source	Action
0509:11	IHD-R	Interphone call was made to Area 8 to make a pointout and while waiting for the call to be answered, a movie audio could be heard playing in the background
0522:19	HOST	ZOB IHD radar accepts handoff on VADER22 from ZDC.
0523:26	VADER22	VADER 22 checks onto ZOB IHD sector level at FL200.
0523:28	VADER22	ZOB IHD-R acknowledges VADER22.
0530:40	IHD-R	Five seconds of movie audio broadcast 0530:40 to 0530:45.
0533:43	IHD-R	Three minutes and six seconds of movie audio broadcast 0533:43 to 0536:49.
0536:25	IHD-R	Background transmission of CJA771 checking in on Area 5 high altitude sectors located at MGW radar position is rebroadcast over IHD-R frequencies. The movie audio is louder and obscures CJA771's retransmission. MGW radar sector is located directly next to IHD radar sector.
0536:47	VADER22	Vader 22 broadcasts on 243.0 advising lost communications with Cleveland Center. VADER22's broadcast is monitored by both IHD-R controller at ZOB and a ZDC controller. The ZDC controller responds first and ZOB monitors VADER 22 advising of an open mike and the broadcast of movie audio.
0537:57	IHD-R	IHD-R transmits to VADER 22 after hearing the call on 243.0
0538-	IHD-R	IHD-R and VADER22 discuss the frequency interference and VADER22's

68

0539		attempts at contacting Cleveland Center.
0548:11	IHD-R	IHD-R amends VADER22 altitude to 100.
0548:45	IHD-R	IHD-R initiates handoff on VADER22 to Sector 70.
	IHD-R	Sector 70 accepts handoff on VADER22.
0602:40	Mr. Sakmar	Mr. Sakmar is forwarded to the ZOB OMIC desk by Great Lakes ROC and relates information regarding the transmission of movie audio on ZOV frequencies.
1925:50	ZOB OMIC	ZOB OMIC calls midnight supervisor on duty during movie broadcast incident. Discussion covers events that occurred the previous midnight shift and actions taken by the midnight supervisor.
